com.google.inject.servlet.InternalServletModule$BackwardsCompatibleServletC
ontextProvider get
WARNING: You are attempting to use a deprecated API (specifically,
attempting to @Inject ServletContext inside an eagerly created singleton.
While we allow this for backwards compatibility, be warned that this MAY
have unexpected behavior if you have more than one injector (with
ServletModule) running in the same JVM. Please consult the Guice
documentation at http://code.google.com/p/google-guice/wiki/Servlets for
more information.
